## **Sheffield City Trust Group Gender Pay Gap Reporting**

We are an employer required by law to carry out Gender Pay Reporting under the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017.

This involves carrying out various calculations that show the difference between the average earnings of men and women in our organisation; it will not involve publishing individual employees' data. We are required to publish the results on our own website and a government website.

We will do this each year within one calendar year of April 5th. We can use these results to assess:

- the levels of gender equality in our workplace
- the balance of male and female employees at different levels
- how effectively talent is being maximised and rewarded.

The challenge in our organisation and across Great Britain is to eliminate any gender pay gap. Gender Pay Reporting requires our organisation to make calculations based on employee gender. We will establish this by using our existing HR and payroll records. You can learn more about Gender Pay Reporting by visiting <a href="https://www.gov.uk/government/collections/gender-pay-gap-reporting">www.gov.uk/government/collections/gender-pay-gap-reporting</a>

We confirm that the data we have submitted to the governments Gender Pay Gap Service in respect of the gender pay gap within the Sheffield City Trust Group is accurate. The data submitted has been summarised below.
